

## Spoolable Connector

Thru-Tubing Technology | Product Code | WT - 1301/1304

### Features

- Robust, cost effective joining of two sections of coil
- Available in coil sizes from 1-1/4 inches to 2-7/8 inches
- One-piece design

### Benefits

- Available in both dimple-on and roll-on
- Available for all coil sizes

**The Spoolable Connector with one-piece design provides a robust, cost effective means of joining two sections of coil. They are available in both dimple-on and roll-on styles.**

The roll-on design incorporates three O-ring grooves providing added security in high-pressure applications. There are also three crimping grooves to give improved tensile strength.

The Spoolable Connector is available for any combination of coil tubing.

### Spoolable Connector / Product Code WT-1301 & 1304

Coil Tubing OD in inches	1-1/2"	1-3/4"	2"	2-3/8"	2-7/8"
Wall Thickness	TBA	TBA	TBA	TBA	TBA
ID in inches	0.688	0.750	1.000	1.313	1.750
